

SPECS® 2024: Empowering Futures: Enriching Lives and Cultivating Success through Education with ECLEE and Jagora University"

Empowerment is a journey that carries us beyond the simple allocation of transient resources—it inspires a legacy of enduring knowledge and skills poised to redefine the lives of those we serve. Since 2014, the European Center for Leadership and Entrepreneurship Education (ECLEE) alongside Jagora University have fervently pursued this vision, championing the cause of education across the African, European, Asian and American landscapes and beyond. Our flagship program, 'Students Professionalization and Employability through Competences & Skills' (SPECS®), has been a catalyst for change for over 16,000 students, enriching them with essential training and highly sought-after certifications, all made possible by the unwavering support of our respected friends and partners.

As we cast our gaze to the boundless opportunities of 2024, we are embarking on a transformative campaign to amplify our reach. Our pledge is to provide an additional 3,000 dedicated students and job seekers this year alone with premier Lean Six Sigma and YETI-EU (Young Entrepreneurs Teaching Initiative Co Funded by the European Commission) training and certifications, instrumental for both their vocational and individual growth. The scope of this endeavor is remarkable, and its fruition depends immensely on the steadfast support and contributions from our community of allies, esteemed individuals such as yourself, who appreciate the immeasurable impact of continuous learning.

Your involvement has the capacity to kindle a wave of change and significantly influence the career paths of our learners. We have curated a suite of sponsorship opportunities designed to empower a myriad of students—a generous act that can unlock boundless potential. In the past, sponsors have graciously supported between 7 to 100 students:

- Lean Six Sigma Yellow Belt Certification: 110€ per student
- Lean Six Sigma Green Belt Certification: 320€ per student
- YETI-EU Certification: 240€ per student

Envision a collaboration that transcends financial aid; one that instigates a dynamic surge of achievement and success. With unity of purpose, we endeavor to mould the prospects of our students, thereby cultivating students and job seekers' yearning for progress and prosperity.

With the deepest sincerity, we extend an invitation for you to join this esteemed quest of empowerment and advancement. Your endorsement not only signifies your commitment to the meaningful influence of education but also bolsters the capacity of our scholars to enact lasting, impactful transformation—thereby lighting the way for a bright future spanning communities and generations.

With great anticipation, we look forward to the extraordinary changes your support promises, cultivating a heritage of autonomy and enlightenment destined to resonate for years. We invite you to become part of this persistent legacy and bear witness to the emergence of a generation primed to meet the challenges of tomorrow.

To signify your participation, please complete the enclosed response form, indicating the number of students you wish to empower, the name of the sponsoring entity—be it an individual or an organization—and whether you would prefer to highlight your support in our communications. We understand and respect that many of our partners choose to contribute discreetly. Your preferences are paramount to us and will be honored accordingly.
